

The HIV Prevention Counseling series is made up of workshops designed for health care professionals. "The Facts" serves as the foundation for "The Fundamentals." "The Fundamentals of Waived Rapid HIV Testing & Prevention Counseling" is designed for those who have attended the previous courses and will be administering the HIV rapid test.

THE FUNDAMENTALS OF WAIVED RAPID HIV TESTING & PREVENTION COUNSELING is a two-day skills building workshop that will teach participants to administer the HIV rapid test through both didactic and hands-on sessions. Participants will understand how to integrate the six steps of prevention counseling into the rapid HIV testing process. **"The Facts" and "The Fundamentals" are prerequisites for this course.**

Which rapid test will be taught will depend on the attendees. Please be sure to indicate which rapid test your facility uses on your registration form.

Both "The Facts" and "The Fundamentals" are prerequisites for this course. To access the calendar of when these courses are offered throughout the state, please visit the training calendar at:

www.hivcenter.vcu.edu/calendar/

ACCREDITATION

Nursing
