Save Antibiotics

We’re doing our part to sustainably raised meats by serving.

Antibiotic Resistance

Antibiotic overuse in animals contributes to antibiotic-resistant infections in humans.

$35 million

Antibiotic resistance costs the United States $20 billion a year in direct health care expenses and additional hospital days a year.

Serving meat raised without routine antibiotics, we’re doing our part to support healthy, sustainable food systems.

Did you know?

80% of all antibiotics are used for industrial animal agriculture.

29 million pounds of antibiotics used in meat production.

7 million pounds of antibiotics used in human medicine.
