

Lymphedema Services

Comprehensive individualized treatment programs to treat lymphedema and other edematous conditions of the extremity, body and/or head and neck.

Services:

- Manual lymphatic drainage
- Compression therapy/garment fitting
- Therapeutic exercise
- Self-care, hygiene and skin care
- Scar management
- Patient/Family Education

Our experienced and specially trained team is committed to accurately assess and provide clinical management of edematous conditions to correct and avoid irreversible and progressive damage. Our clinic is a sponsoring treatment center for the National Lymphedema Network.

Common Symptoms:

- Limitation of movement
- Persistent swelling
- Hardening or pitting of the skin
- Perceived heaviness in an extremity or body part
- Recurrent infections/ulcerations
- Change in skin color, hair/nail growth

Our team of specialists includes:

- Board Certified Lymphedema Therapists (LANA) (occupational/physical)
- Occupational Therapists
- Physical Therapists

Physician prescription required.
