

Inova Well American Heart Association (AHA) Authorized Training Center June 18, 2020 - COVID-19

Inova Well life support programs, which include **all of Inova's American Heart Association classes, have resumed**. If your class was cancelled due to COVID-19 please re-register yourself for the month your certification now expires. We will be cross checking and prioritizing team members whose classes were cancelled due to COVID-19 based off critical job function and original certification expiration date.

The Inova Well life support team will be happy to help you if you are having trouble registering for a class **during the month that your certification expires**. Please contact Inova Well's life support program for additional navigation at: lifesupportprograms@inova.org. Please provide your full name, employee ID, cost center, class you need and expiration date. We will also be partnering and providing outside training center information to team members due to the high demand of classes that need to be rescheduled.

Inova has granted a 120 day extension to team members that have cards that expire March/April/May/June/July 2020. This extension excludes team members whose certification cards originally expired in March and have already received an extension.
