Prescription Drugs

Prescription drug coverage is included in the premiums you pay for medical coverage. The copays or coinsurance (collectively referred to as “cost sharing”) in the chart below show how much you’ll pay for a prescription. Cost sharing counts toward your out-of-pocket maximum but not your deductible.

### Up to a 30-day supply from retail pharmacy

² Specialty medications (typically injectable and oral drugs) must be filled through Inova Pharmacy Plus locations and are dispensed in 30-day quantities via mail order. First fills are not available through retail, except in emergencies. For more information, contact Inova Pharmacy Plus directly.

**Maintenance Medications**

You are required to receive a 90-day supply of a maintenance medication after your second fill of a 30-day supply. Your cost is cheaper on a per-unit basis for a 90-day prescription than a 30-day prescription. You can fill these prescriptions through Inova Pharmacy Plus, Express Scripts Home Delivery mail service or a CVS retail pharmacy.

**Specialty Medications**

Specialty medications are high-cost prescription drugs used to treat complex, chronic conditions such as rheumatoid arthritis, multiple sclerosis and cancer. Specialty drugs must be filled through Inova Pharmacy Plus and are dispensed in 30-day quantities. Due to manufacturer restrictions, some specialty medications will still be available only through Express Scripts Specialty Pharmacy/Accredo. For more information, please contact Inova Pharmacy Plus at 1.571.472.1100 and select option 9.

**Note:** There is a $20,000 lifetime maximum benefit for fertility drugs.
