For questions call 703-698-2523

The **National Comprehensive Cancer Network (NCCN)** and the **Society for Integrative Oncology (SIO)*** endorse acupuncture as a complementary therapy in the treatment of pain and chemotherapy-induced nausea and vomiting. The value of acupuncture has not yet been established for dry mouth, fatigue, neuropathy and hot flashes, but limited studies have shown some possible patient benefit.

**NCCN and SIO conduct and evaluate innovative research to ensure evidenced-based practice focused on improving the quality of life for cancer patients.*
