Preparing for Your Procedure

Inova Loudoun Hospital

Welcome

Thank you for choosing Inova Loudoun Hospital for your upcoming procedure. We take pride in providing the highest quality care in a safe environment. At Inova Loudoun Hospital, you will always be treated with compassion and concern for your well being.

This guide will provide information on how to prepare for your procedure, what to expect once you arrive at the hospital and how to plan for your care after surgery.

Sincerely,

Inova Loudoun Hospital's Surgical Services Team

Arrival Time:	
Procedure Date:	
Procedure Time:	
Important Phone Numbers	
Main Hospital Operator	703.858.6000
Presurgical Services Nurse	703.858.6768
Presurgical Services Fax	703.858.6425
Operating Room Reception Desk	703.858.6490
Financial Counseling	703.858.8091
Central Billing Office	571.423.5750
Medical Records Office	702.050.6625

Before Your Procedure

Your surgeon will:

- Schedule the date and time of your procedure with the Surgical Services scheduler and determine whether you will be an inpatient or an outpatient.
 - Inpatient means you will be admitted to the hospital.
 You will remain in the hospital for one or more days until you are ready to go home.
 - Outpatient means that you will come to the hospital the day of your operation and go home that same day.
- Give you instructions on certain food or medications that need to be avoided or stopped before your surgery. Please discuss these instructions with your surgeon.
- Contact the scheduler in the event that your procedure needs to be rescheduled or canceled.¹

You will:

- Receive a call from the Surgical Services team to schedule your phone interview with a nurse who will:
 - a. Review your medical, surgical, and family history
 - b. Discuss with you any additional testing needed and dietary restrictions required by anesthesia
 - c. Answer any questions you may have

On average, the interview takes 30 to 60 minutes.²

- Prepare for your interview by listing pertinent information about your medical history, e.g., specialists you have seen, previous procedures you have had with anesthesia, allergies and medicines, including the dosage and times taken.³
- Make arrangement for a responsible adult to accompany you home. Public transportation (e.g., bus or taxi) is not a satisfactory method of transportation.
- Receive a call from one of our registration team members who will verify your insurance, demographic information, and copay if applicable. Please have your insurance card information ready.
- Call 703.858.6768 or 703.858.8025 to reserve a space at our joint camp if you are scheduled for a hip or knee replacement surgery.
- Follow and complete your procedural preparation if ordered.
- Receive a call the day before your surgery from the Surgical Services team confirming your expected arrival time on the day of your surgery.

Presurgical Interview Worksheet

Please have the following information available for your scheduled phone interview with the nurse:

List of current medications including over-the-counter medications, prescriptions and vitamin supplements

Name of Medicine	Dosage	Times Taken
List of past procedures y	you have had that red	quired anesthesia
Procedure	Type of A	Anesthesia
List of specialists you are physician	e seeing and your prin	nary care
Doctor's Name	Specialty	

¹ If you become ill or have a fever, please call your surgeon.

² If you need an interpreter, we will schedule one to join the call

³ A worksheet is provided with this guide for your convenience.

Important Pre-Operative Instructions	☐ Please remove makeup before you arrive.
The following instructions are designed to provide you with a safe and comfortable surgical and anesthesia experience. Please follow all instructions carefully.	For pediatric patients, please bring a toy.Other instructions:
☐ You may brush your teeth and gargle on the morning of surgery, but do not swallow any water.	
☐ Please shower or bathe the night before or the morning of surgery with an antibacterial soap.	
□ Notify your doctor if you develop any sign of illness before the date of your surgery. Report symptoms such as high fever, sore throat or other infection, breathing problems, or chest pain.	Special medication instructions from anesthesiologist:
☐ Please arrange for someone to drive you home. For your safety, you will not be allowed to drive home after sedation or anesthesia. A responsible adult must be present to accompany you home when you are ready to leave.	
☐ We strongly recommend that all patients have an adult at home with them for the first 24 hours after surgery.	STOP the following medications 7 days prior to your procedure
☐ Valuables and jewelry should be left at home. If you wear contacts, please leave them at home. If you wear glasses, please bring a case for their safekeeping.	
☐ Wear casual loose-fitting and comfortable clothing. A gown will be provided.	

Solids	Clear Liquids or Ice Chips	Breast Milk	Infant Formula	Nonhuman Milk
No solids for 8 hours prior to the scheduled procedure time.	You may have "clear" liquids or ice chips up to 2 hours prior to the specified arrival time. Examples of clear liquids include water, apple juice, sports drinks such as Gatorade, and coffee or tea without cream or milk. Sugar or	Feeding must end 4 hours prior to the scheduled procedure time. DO NOT add cereal or thickeners.	Feeding must end 6 hours prior to the scheduled procedure time. DO NOT add cereal or thickeners.	Feeding must end 8 hours prior to the scheduled procedure time. DO NOT add cereal of thickeners.
Other Notes:	sweetener may be added.			

On the Day Before Your Procedure

You will:

- Receive a confirmation call: On the business day before your surgery, a hospital team member will call you to confirm your surgery, arrival time and location.
- ☐ Prepare what to bring with you. Please pack lightly.
- ☐ Follow eating and drinking restrictions as instructed by surgeon and/or presurgical services nurse. Failure to do so may result in cancellation of your procedure.

The following is a checklist to help you prepare:

- ☐ The legal ID you used when scheduling surgery with your doctor
- Your health insurance card
- ☐ Telephone numbers of people you wish to call
- ☐ Eyeglasses (do not wear contact lenses) and case
- Dentures (we will provide a case)
- Comfortable loose-fitting clothing that will be easy to put back on after surgery
- ☐ Hearing aides (you will be asked to remove them before surgery)

On the Day of Your Procedure

To Reduce Bacteria on Your Skin:

- 1. Bathe or shower the morning of the procedure with an antibacterial soap before arriving.
- 2. Do not apply lotion, perfume, cologne or spray-on products.
- 3. Do not shave your surgical site at home.
- 4. Do not wear makeup, jewelry (including body piercings), watches, earrings, or rings.

Special Instructions for Children:

- Bring a favorite small toy.
- ☐ Follow your doctor's dietary restrictions especially the morning of the procedure.

Patients under 18 must be accompanied by a parent or legal guardian for any required presurgical testing. On the day of surgery, a parent or legal guardian must be present to sign an informed consent form prior to surgery and must remain in the hospital throughout the procedure.

Understanding Your Procedure Bills and Fees

Expect to receive several bills after surgery.

- Your surgical care providers will first bill your insurance company for the costs associated with the procedure/surgery.
- You will receive a bill for any remaining balance, such as a deductible cost, copay or co insurance.
- You will receive separate bills from providers of the surgical team. They may include:

Your hospital bill:

- A facility bill from the hospital or surgery center at which the procedure or surgery is performed. This bill will reflect expenses for staff, supplies and equipment used for the surgical services provided.
- Questions and payments regarding the bill should be addressed directly to the hospital/facility named on your bill.
 Or, you may call Inova's Center Billing Office at 571.423.5750.
- For questions on estimates, please call 703.858.8894 or 703.858.8899. Both offices have team members able to assist you Monday – Friday, 8:30 a.m. to 4:30 p.m.

Your surgeon's bill:

- A bill for the surgeon's services.
- Questions regarding this bill should be addressed to the specified surgeon named on your bill.

Your anesthesiologist's bill:

- A bill for the anesthesia services you receive during a procedure, provided by an anesthesiologist with American Anesthesiology Associates.
- Questions regarding this bill should be addressed to the specified anesthesiologist named on your bill or by calling 1.888.280.9533.

On the Day of Your Procedure

You will:

 Arrive at the facility at least 1½ hours prior to your scheduled procedure unless instructed otherwise by hospital staff. Ample free parking is available.¹

When You Arrive

Enter through the south hospital entrance, proceed to the registration area and sign in at the desk.

You will need to have your:

- · Valid photo ID
- Insurance card

After You Sign In

- One of our registration team members will escort you to the Surgical Services waiting area, where you will wait to be called back to the pre-op area by a member of our clinical team. A member of your family or a companion may accompany you and will be asked for a good contact number.
- 2. When you reach your room, you will change into a hospital gown.
- You will meet the following members of our surgical team who will verify your name and the procedure, review your medical information, and obtain your surgical consent.
 - Pre-operative nurse and clinical technician
 - Anesthesiologist and certified registered nurse anesthesist (CRNA)
 - Surgeon
 - Operating room nurse

Please ask any questions or identify any concerns you may have at this time.

When Your Procedure Is Ready to Begin

 You will be wheeled on a stretcher to the operating room.

At this point, your companion or family member will be directed to proceed to the Surgical Services waiting area.² Your family and companions can keep track of your procedure's progress with status updates on a flat-screen monitor in the waiting area.

When Your Procedure Is Complete

- · You will be taken to the Phase I recovery area.
- If you are admitted to the hospital after surgery, the recovery room nurse will call your family members/ companion(s) when you are ready for transfer to the inpatient nursing unit. They may then proceed to your room and will see you once you are on the nursing unit.
- If you are going home after your procedure, you will be moved to the Phase II recovery area when awake from surgery.

Phase II of Recovery and Discharge

- Once you are settled, comfortable and ready, the family member or companion you listed as your contact will be called to your Phase II recovery room.
- While in Phase II, you and your family member or companion will be provided discharge instructions and any prescriptions the surgeon has written. We will review your discharge instructions thoroughly with you and your companion. We will ensure that you are well prepared to continue your recovery at home.
- You will be ready to go home when certain discharge criteria are met, such as:
 - No nausea or vomiting
 - Stable vital signs
 - Able to tolerate oral liquids
 - Able to maintain desired comfort level
- It is normal to feel tired when you go home. The effects of anesthesia will usually wear off by the next morning.

¹ Please refer to the campus map for parking locations.

² Complimentary coffee and water are available for waiting family and friends at the waiting area.
