

2026-2027 Sports Medicine Fellows

Jamison Maxwell, MD

Education: University of Oklahoma College of Medicine

Residency: Inova Family Medicine

Why Inova?

I chose to stay at Inova for fellowship because I knew that the program would help me fulfill my highest potential as a well-rounded, do-it-all primary care sports medicine physician. During family medicine residency at Inova, you get a lot of exposure to the sports medicine fellowship, and I knew the training I'd get here would be the best of the best. The faculty promote a culture that pushes you to be your best while always being friendly and thoughtful. The ultrasound training here is so strong that I feel it will give me an upper hand with my diagnostic and procedural skills. The team coverage at the high school, college, and professional levels keep growing and will give me the experiences that will set me up for success in my future goal as a team physician. I feel very fortunate to spend another year with Inova.

Kayla Thomas, MD

Education: Howard University College of Medicine

Residency: University of Virginia Family Medicine

Why Inova?

I chose to complete my fellowship training at Inova for their robust curriculum, unique sports coverage and the opportunity to work as a team with renowned faculty and physicians. I am confident Inova will exceed in preparing me for my future as Primary Care Sports Doctor.

Neil Huckstep, MD

Education: Uniformed Services University of the Health Sciences F. Edward Herbert School of Medicine

Residency: David Grant Medical Center Family Medicine

Why Inova?

Choosing the Inova Primary Care Sports Medicine fellowship was an easy decision, particularly because of its outstanding coordination and relationship with the National Capital Consortium. As an active-duty, civilian-sponsored fellow, this unique partnership allows me to seamlessly bridge the gap between military and civilian sports medicine, gaining invaluable experience from both sectors. Furthermore, the program offers unmatched resources and cutting-edge training, featuring world-class ultrasound instruction and some of the best didactics in the country. I was also drawn to the incredible coverage opportunities, from the annual ski clinic to working directly with professional, collegiate, and high school athletic teams. Ultimately, the exceptional network of dedicated teachers and mentors available here makes Inova the perfect environment to elevate my sports medicine career.
