

Sports Medicine Fellows

Oluwatobi Lasisi, MD

Education:

Howard University

Why Inova?

What drew me to this program was its breadth of opportunities for personal and professional growth. The curriculum emphasizes advanced diagnostic and procedural ultrasound, and the wide range of event coverage provides diverse, hands-on experience. The concussion clinic's large patient base creates opportunity for research, especially in concussion care, which is an area I'm passionate about. I'm grateful for the chance to learn from faculty who have practiced at the highest levels of the field. The mentorship is exceptional, with a genuine investment in each fellow's development. I'm proud to be here

Ramyar Sigarcy, MD

Education:

HCA-Florida Orange Park

Why Inova?

I chose this program for its wide breadth of training, providing ample sideline and team coverage experience, robust and structured didactics with an emphasis on ultrasound and other radiology, and even a ski clinic rotation. Beyond the curriculum, I found the faculty to be knowledgeable yet approachable. It was exactly the fellowship learning environment I was looking for.
