

SAVE THE DATE: Nursing Research & EBP Symposium

Theme: “Power of the Nurse: Creating, Transforming, and Sustaining Knowledge for Practice”

Thursday, Sept. 22
Virtual Conference (9 a.m. - 3 p.m.)

Registration is FREE!

Inova’s annual Nursing Research Symposium was created to provide professional nurses with an opportunity to present and learn about research and evidence-based practice to improve patient outcomes. Dynamic sessions will interest nurses with a variety of clinical and research experience.

Event Highlights:

- Learn how nurses are using research, evidence-based practice and quality improvement to transform patient care and outcomes
- Network with nurses who developed evidence-based practice projects and research
- Option to earn up to **5.5** CNE Credits

2022 Keynote Speaker

Molly McNett, PhD, RN, CNRN, FNCS, FAAN
Professor of Clinical Nursing
Assistant Director, Implementation/Translation Science Core,
Helene Fuld Health Trust National Institute for EBP

2021 Attendee Reflections

“By attending this symposium, I am reminded of the important of nursing presence in the area of research and evidence based practice. The nursing fellows who presented today were inspiring and I believe motivated many to examine their home units for potential areas of improvement.”

“Every new research idea or proposal is valid and applicable to our practice, profession and ultimately to our patients. As long as there is a passion for an area of research, there will be a way to conduct the research, compile findings and disseminate new knowledge from the ‘bench to the bedside.’ ”

“Amazing research done by all. Always interesting and this conference just has a great fun way about it.”

“Excellent conference, engaging format even on Zoom. All moderators were articulate and interesting to listen to.”

Registration Details:

Mark your calendar and **request time off now** to attend this event in September!

Registration will open in June
