

Internal Medicine and Medicine Sub-Specialist ICD-10 Training Plan

This is a two-part plan consisting of self-learning modules and interactive training.

Part 1: Self-Learning Modules

A. Complete this course on HealthStream

Log into [HealthStream](#) and click on the “Catalog” tab. Search for **ICD** and select the module for General Internal Medicine or any medical sub-specialty.

Description: These courses provide important information for physicians on the ICD-10 coding system that will go into effect Oct. 1, 2015. Specialty-specific information is provided on the physician documentation requirements to support code assignment for diagnoses that have the most significant changes. The course also reviews coding system benefits.

Learning Objectives: Physicians will be able to identify the impact of the ICD-10 coding system to their own practice. They will be able to identify diagnoses that have the most significant changes along with the documentation requirements to support code assignment for those conditions.

B. Documentation Guidance for Patients Admitted to Acute Hospital Setting:

Review the 3M Specialty Documentation Reference Card for General and Internal Medicine and other medical sub-specialties, located on Inova’s “Physician Documentation” site at the link below. **Note: This 3M proprietary content is password protected. Enter the following:**

User Name: Inovadoc

Password: ICD10

<http://www.inova.org/for-physicians/physician-documentation/ICD-10/specialty-reference-cards>

C. CMS Internal Medicine Clinical Concepts Guide: [Internal Medicine](#)
