Inova Fair Oaks Hospital Virtual Maternity Tour
Welcome to Inova Fair Oaks Hospital!

- At Inova Fair Oaks Hospital, everyone is a VIP – a Very Important Patient.

- We are proud to have been named one of the Nation's 100 Top Hospitals by Truven Health Analytics for both 2013 and 2014.

- Inova Fair Oaks Hospital has been named a Magnet™ organization, one of the highest levels of recognition a hospital can achieve for excellence in nursing services.

- Click here to learn more about Inova Fair Oaks Hospital's awards and recognitions.
Arrival & Parking

- **6:00 a.m. – 9 p.m., Monday – Friday**
  - Enter through the main hospital entrance. Go to Labor & Delivery on the 3rd floor to complete the registration process and be assessed.

- **9 p.m. – 6:00 a.m., every night and all day on weekends**
  - Enter through the Emergency Department. Stop at the registration desk in the ED and you will be escorted to Labor & Delivery.

- Enter through the emergency room at any time if you are having an emergency!
Arrival & Parking

• All parking is free at Inova Fair Oaks Medical Campus for patients and visitors.

• Enjoy complimentary valet parking, available at the main entrance from 5:30 a.m. – 6:00 p.m., Monday through Friday.

• Specially designated parking is for patients and visitors using the Emergency Care Center and adjacent to medical office buildings.

• There is also a parking garage for patients and visitors.

• Click here for more directions and parking information.
• **Pre-registering** will make the registration process go much quicker! You can complete this process two ways:
  1. **Click here** to complete your pre-registration form for Inova Fair Oaks Hospital online.
     • The online form should be submitted between your 20th and 28th weeks of pregnancy.
  2. Ask your obstetrician for a paper pre-registration form.
Step 2 – Triage Assessment

- When you arrive to the Labor and Delivery floor, you will initially be assessed by a nurse in the triage area.

- Only one visitor will be allowed to accompany you in triage. Other visitors may wait in the waiting area.

- If you are considered to be in active labor, you will be admitted to a private labor, delivery, and recovery suite.

- If your labor is not progressing very quickly, you may have the opportunity to walk around or go back home to rest, as determined by the medical staff.

- If you are expecting to deliver by C-section, our team will admit you to the pre-operative assessment suite.
At Inova Fair Oaks Hospital, you will spend your entire birthing experience in one comfortable home-like room – your labor, delivery, and recovery suite.

Our rooms provide a warm and inviting environment yet come equipped with modern technology to provide a safe and positive birth experience for you and your family.
Labor & Delivery Environment

• Our compassionate, highly trained care team includes certified nurses, technicians, and physicians who will assist you in managing your labor.

• Pain-management and anesthesia services are available onsite 24/7 to meet individual needs.

• There are bathrooms with showers in each of the labor, delivery, and recovery rooms, and two rooms have bathrooms with Jacuzzi tubs for those desiring to use these comfort measures during their labor process. Squatting bars are available for pushing upon request.

• You are welcome to bring a birthing ball or peanut ball into the hospital if cleared with the doctor.

• Each room has a television.

• An electronic fetal monitor will be used intermittently to evaluate your baby’s well-being during your labor and delivery.
Post Labor & Delivery Experience

- Following your labor and delivery experience, our goal is to meet your unique expectations. We seek to provide a personalized, once in a lifetime experience by fostering an immediate introduction to your baby.

- You may expect the following after labor and delivery:
  - Skin to skin bonding
  - An overall assessment
  - Erythromycin eye ointment
  - Vitamin K injection to help with blood clotting
  - Wiping the baby with warm blankets
  - Emotional support and guidance for the first breastfeeding experience

- The baby’s first bath will be on the Family Centered Care unit, after his or her temperature has stabilized.

- After delivery your newborn will stay in the labor and delivery room to recover with you for 1-2 hours after your delivery. After this period, you and your newborn will travel together to a room on our Family Centered Care Unit for your postpartum stay.

- We respect that this is your special time with your new baby. We strive to keep you and your family together during your stay at Inova Fair Oaks Hospital.
Cesarean Birth

- Our labor and delivery unit features dedicated operating rooms, available only for C-sections.
- Your support person will wear protective clothing to join you during the procedure.
- Only one support person is allowed to accompany you during a C-section; other visitors may wait in the waiting area.
- After your C-section you will go to the Post-Anesthesia Care Unit (PACU) which is designed so mothers and newborns remain together.
- 1-2 hours after a vaginal delivery or a C-section, you and baby will travel together to a room on our Family-Centered Care unit.
- Inova HealthSource offers a virtual class that takes you step-by-step through a cesarean birth. Class information is available through the Inova HealthSource Childbirth Education program.
What to Bring for Labor & Delivery

In order to make sure you are comfortable during your stay with us, we suggest you pack the following things in your labor bag:

- Slippers/sandals
- Bath robe
- Camera and music
- Toothbrush and toothpaste
- Bath soap
- Eyeglasses or contact lenses
- Socks
- Lip balm
- Hair ties
- Pediatrician’s business card
- Insurance card
- Photo ID
The safety, security, health, and happiness of your family are of utmost importance to us at Inova Fair Oaks Hospital.

We have a special newborn-protection system in place that we will review with you after admission. You will receive full instructions about how we secure the safety of your newborn baby.

All staff members will wear a photo ID badge.

The Labor and Delivery unit and Family Centered Care unit are secure units and the entrances are monitored.
Safety & Security

- Right after your baby’s delivery, your baby will receive identification bands, for the wrists and ankles, with the same medical record number.

- Both you and your partner will receive a band with the same medical record number as your baby.

- Upon transfer to the Family Centered Care Unit, both mom and the baby’s bands will be verified.

- A small security sensor will be attached to the baby that will sound an alarm if the baby is taken beyond designated areas. This sensor will be removed just before discharge.
Step 4 – Family Centered Care Unit

After you deliver, you’ll be moved to our Family Centered Care unit for the remainder of your stay. Experienced, specially-trained maternity nurses will be caring for your newborn and will teach you about baby care. Rooming-in allows babies and their families to stay together, promoting bonding and recognizing babies feeding “cues” or signs that they are hungry.
Family Centered Care Unit: Details

- The Family Centered Care Unit offers private recovery rooms with soft, soothing colors, subdued lighting, and comfortable furnishings with state-of-the-art equipment.

- Your support person may stay overnight with you.

- It is encouraged for your newborn to room-in with you 24 hours/day. Since our goal is minimal separation of mother and baby, we encourage you to keep your newborn with you at all times, even during the night. By keeping your baby with you around the clock, bonding is promoted, you will get to know your baby right away, and you will be better prepared to take care of your baby at home.

- Whatever method you choose for feeding your baby, rooming in allows you to recognize feeding cues and learn to identify when your baby is hungry. Learning early feeding cues can help to avoid the stress of a frustrated, crying baby.
The nursery is a place for newborns who may need additional monitoring following birth, but whose conditions are not serious enough to require treatment in our neonatal intensive-care unit (NICU). Although we encourage rooming-in with your baby, you may also take advantage of our nursery if you want to rest or shower.
• Once your baby is stable, your baby will receive their first bath in your room.

• Mom stays in the hospital for about 24 – 48 hours after a vaginal delivery or 48 – 96 hours after a Cesarean section. Total time spent in the hospital is dependent on mom’s recovery.

• Free wireless internet access is provided for your convenience.

• Cell phone use is permitted. There are also local phones in each room and calling cards can be used for long distance calls.
Family-Centered Care: Details

- Your television comes equipped with free educational programming 24 hours a day on various aspects of new baby care and adjustment to parenting.
- Each room has a bathroom and shower for your use.
- A sleep chair is provided in the private rooms so your support person may stay overnight with you.
- Room service dining for mom is available from 6:30 a.m. to 6:30 p.m. Click here for more information about meals and snacks.
- There is a nourishment center which includes snacks for you and your support person.
- Serenity Time is a daily break from 2:00 p.m. to 4:00 p.m., when moms are encouraged to relax and rest without being disturbed by visitors or caregivers.
What to Bring for Recovery

In order to make sure you are comfortable during your stay with us, we suggest you pack the following things in your overnight recovery bag (please leave it in your car until after your baby is born):

- Nightgown or pajamas for you and your partner who will spend the night
- Nursing bra
- Cosmetics
- Shampoo and conditioner
- Hair dryer
- One “going home” outfit for baby
- One loose-fitting “going home” outfit for you
- Several pair of underwear
- Sweatpants or pajamas for support person who will spend the night
- An installed infant car seat
- A $12 check or money order made out to ‘State Health Department’ for a birth certificate
Breastfeeding Support

The decision to breast or formula feed your new baby is a personal choice. We want all new parents to be aware of the health benefits of exclusive breastfeeding for both mothers and newborns. [Download the Inova Fair Oaks Hospital lactation brochure for more details.](#)
Breastfeeding Support

- **Internationally Board-Certified Lactation Consultants**: A consultant is available during your hospital stay to offer one-on-one support. In addition, your Family Centered Care nurses are also specially trained to assist and support breastfeeding.

- **Inpatient Services**: An inpatient breastfeeding class takes place on our Family Centered Care unit Monday through Saturday at 11am.

- **Outpatient Services**: Lactation consultants are available by appointment to help breastfeeding mothers with infants up to three weeks old. Private consultations, nursing-bra fittings, and telephone support are provided. All services are by appointment so that we may better serve you. Hours are Monday to Saturday, 9am to 2pm. To make an appointment, call 703.391.3908.

- **New Moms Support Group**: Drop in to our weekly New Moms Support Group when you are ready to meet new friends and talk about the challenges and joys of being a new mom. Groups are facilitated by an experienced Childbirth Educator. There is no fee to attend or registration requirements. Visit the Inova HealthSource Childbirth Education webpage for locations and more information.

- **Inova HealthSource Breastfeeding Class**: Attend a class prior to your delivery to prepare for a successful and rewarding breastfeeding experience. View the online schedule here.
• Inova Fair Oaks offers a private Level III Neonatal Intensive Care Unit (NICU) recently renovated and fully equipped for infants with specialized needs.

• Our NICU Family Support Coordinator can guide you through the NICU journey, provide education, and alleviate concerns.

• If needed, our excellent NICU staff will support you in the care of your newborn and help you prepare for the day of discharge.

• Free, personalized Caring Bridge websites are available to families to stay connected with loved ones and friends during your hospital stay.
  o Click here to learn more about Caring Bridge

Click here to learn more about NICU services at Inova Fair Oaks Hospital
When admitted, bring your pediatrician’s (your baby’s doctor) name and phone number with you to the hospital. The hospital staff will notify the pediatrician after your baby is born.

The pediatrician will examine your baby within 24 hours of the birth.

If your pediatrician does not visit Inova Fair Oaks Hospital, your baby will be examined by one of the physicians on staff. One to two days after discharge, you will need to follow up with your own pediatrician.

An in-house pediatrician and neonatologist are available 24 hours a day, seven days a week.

Should you desire that your male baby be circumcised, it will be performed by your obstetrician in the Nursery.
We recognize the importance of having visitors during your stay to celebrate your joyous occasion. Inova offers open visiting hours to its patients, meaning there are no specific times family and friends can visit. Our patient-centered philosophy states that the patient determines who visits and when they visit. We believe surrounding our patients with the people who matter most is important to the healing process.

Current guidelines within this open visitation policy are:

• Patients may have up to 5 visitors at a time – a significant other plus 4 others.

• Mothers are encouraged to take advantage of Serenity Hours between 2 p.m. and 4 p.m. During this time, we ask all visitors and hospital staff allow our patients uninterrupted time to rest or to bond with their newborn.

• No children under the age of 12, other than siblings of a newborn, may visit. Children must be supervised by an adult other than the patient.
Flu Visitation Policy

During periods of increased flu-like illness at Inova Fair Oaks Hospital, the hospital institutes temporary changes to their visitation policy.

The temporary measures include:

- No visitors under the age of 16, including siblings of the baby.
- No visitors with any symptoms of influenza-like illness.
- Visitors will be limited to two persons.
- Visitors will be limited to spouses/significant others, parents, grandparents, other immediate family member responsible for care, or other designated caregiver.
- Visitors may be issued masks for use while visiting, and asked to wash hands frequently.
- **A patient care companion is allowed to stay with the patient 24/7.**
- Patients, friends, and families should call the information desk at 703-391-3600 to confirm the visitation policy at the time of their stay.
Going Home

- There is a birth certificate office and registrar in the hospital to help you with paperwork for your baby. There is a $12 fee payable by check or money order made out to ‘State Health Department’ – cash and credit cards are not accepted.

- Once your nurse has received discharge orders or instructions from both your physician and pediatrician, they will review your personalized discharge instructions and written resources.

- Make sure your car seat is properly installed before discharge. Hospital staff cannot help with installation. It is recommended that you have your car seat installation inspected by a trained technician. For more information about car seats, visit:
  - [SaferCar.gov](http://SaferCar.gov)
  - [Fairfax County Sheriff's Office](http://Fairfax County Sheriff's Office)

- An appointment with a Pediatrician is a requirement for discharge. [Click here](#) to search for a Pediatrician.

- It is our goal to always meet the needs of both you and your baby. We consider it a privilege to be a part of this special time in your life. We want to know how you feel, who and/or what made your visit great, as well as what opportunities we have to improve our services. In the near future, you may receive a survey in the mail, or by email—please let us know about your experience with us!
Weekly New Moms Groups are a great resource for parents adjusting to their new role. An experienced maternal-infant health educator facilitates an informal discussion with new moms. Please call 703-698-2441 or visit the Inova HealthSource Childbirth Education page for details!

Why should you visit New Moms?
• Meet other new moms and babies
• Get support from an experienced maternal-infant health educator
• No registration required
• Free parking and attendance
• Babies are welcome!
